G&S Insurance Consultants is the leading insurance broker on the East Rand with a market share exceeding 10%.

We offer our clients a wide variety of specialized products and services. Our core business has been the same for 20 years – to take care of our clients insurance and assurance needs.

This is embedded in providing insurance and assurance products and services aimed at specific markets, as well as using and optimizing our consultant network.

The company focuses on the corporate, commercial and personal markets.

Our client contact centre in Alberton makes it convenient for our clients to manage their insurance affairs. We provide multiple points of entry, so they can choose if they want to conduct their business personally, telephonically or electronically via email. Our extranet allows our consultants electronic access to our clients portfolios to help them manage their insurance portfolios more effectively.

G&S Insurance Consultants realizes that the brand direction encompasses everything else. It is central to the retention and growth of the business and the networks that we build. To create brand relevance and differentiation, the brand was repositioned based on the proposition of prevention is better than cure.

To ensure sustainability, a brand can only be built from the inside out. Therefore, the business places a high priority on enabling staff to support the brand promise through service delivery.
